SUMMARY:

Full stack software developer with expertise in front-end and back-end development, experience in working cross-functional teams.

TECHNICAL SKILLS:

- **Frontend** - JavaScript, jQuery, Bootstrap, HTML, CSS, MVC Web API
- **Backend** - Java, C#
- **Devops** - Jenkins, AWS, Kubernetes
- **Database** - mySql
- **Framework** - ASP.NET, Spring boot.

EXPERIENCE:

Software Engineer (SE) - Tata consultancy service (TCS) | Jan 2022 - Present

- Developed APIs using Java to create robust and scalable backend services.
- Implemented front-end features with jQuery, JavaScript, HTML, and CSS to build dynamic and responsive user interfaces.
- Managed MySQL databases, optimizing data storage, retrieval, and security for efficient data handling.
- Collaborated with cross-functional teams throughout the development lifecycle, from design and architecture to deployment and maintenance.

PROJECTS:

TCS ION Marking Hub Project - Front End and Back End Development

Tech Stack: Java, jQuery, Bootstrap, AJAX, HTML, CSS, mySql, Jenkins, Webtop.

- Implemented a bank details section in the user module, allowing users to enter bank information and upload a bank passbook. Utilized Bootstrap, jQuery, AJAX, HTML, and CSS for the front-end development.
- Developed an admin module for verifying user-submitted bank details by matching the information with the uploaded passbook images, ensuring accuracy and compliance. Used Java for backend development.
- Designed and managed the database using mySQL, ensuring secure storage, efficient retrieval, and seamless integration of bank details and passbook images.
- Integrated CI/CD pipelines with Jenkins, enhancing the development process through continuous integration and continuous deployment practices.

Ecommerce Website - Front End and Back End Development

Tech Stack: C#, .NET, JavaScript, Bootstrap, CSS, HTML, AJAX, mySql, Jenkins

- Frontend development for creating interactive, intuitive, and responsive user interfaces with JavaScript, Bootstrap, CSS, and HTML.
- Backend implementation built C# to handle API integrations, and database operations.
- Database management utilized mySql as the database to store and manage product information and user data.
- Product catalog, shopping cart functionality: Created a product catalog with features like search, filtering, and sorting.

CERTIFICATION & TRAINING:

- Certification of Java in Udemy Platform.
- Completed three months of Initial Learning Program (ILP) in TCS.
- Completed one month Java training program in TCS.

ACHIEVEMENT:

- **On-the-Spot Award:** Recognized as the Best Employee in TCS for exemplary performance and dedication to delivering high-quality work.
- **Applause Awards:** Received 2 Applause Awards for outstanding contributions, earning the prestigious TCS Gems recognition.
- **Chess Award:** Secured first position in college chess competition.

EDUCATION:

M.J.P Rohilkhand University, Bareilly | Bachelor Degree in Computer Applications |
July 2018 to July 2021.

DECLARATION:

I hereby declare that all the information provided above by me is true.
